

The Cloud Takes Lean Manufacturing To New Levels

The cloud is leading the next phase in lean manufacturing. Cloud-based capabilities optimize workflows and increase efficiencies, driving lean principles throughout your organization.

Integrate your entire supply chain. Spend more time on what you do best. Simplify IT, boost productivity, and get closer to your customers.

Get lean in the cloud:

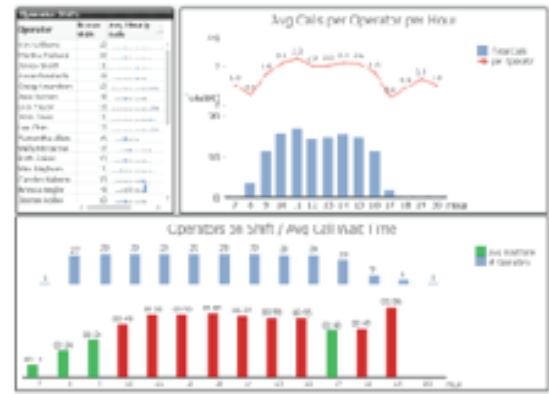

- Remove defects at the source
- Eliminate hardware, maintenance and support
- Control costs with pay-as-you-go pricing
- Pull suppliers and partners into the supply chain

BI@S, Business Intelligence as Service, uses the latest tools and technologies to maximize your data assets in the cloud, minimizing waste while showcasing customers.

Lean manufacturing pulls more value out of your business. BI@S and the cloud take that value to the next level.

BI@S analytics are:

- Cloud
- Compliant
- Outsourced
- Integrated
- Mobile
