Club Management in Action

CSI Software has pioneered new ways of thinking about the health club industry. We've developed new methods for capturing data and turning it into meaningful analytics that drive productivity, reduce costs, and save time.

We also value flexibility. Each SpectrumNG module is customizable and fluid, adapting to your specific needs for marketing, billing and scheduling. We offer scale to any sized club, and reach to multiple sites.

In essence, SpectrumNG helps execute your most ambitious business plans, and accomplish your most critical objectives. We're committed to building the best management software in the industry, so you can get back to building your best customer experience.
